

Regulations

Regulations for Awareness through Movement lessons – In-person group classes

Academic Year

1

The academic year begins in early September, coinciding with the start of the school term.

Terms

2

The academic year is divided into three periods, known as terms.

These periods cover the time between:

- September and Christmas
- January and Easter
- and Easter until the end of June.

To take part in lessons, a binding registration for a term is required. This entails a commitment to pay for the scheduled number of lessons at the start of each month, regardless of whether attendance takes place.

The first lesson is free of charge.

You may join a group at any time during a term.

The first three lessons following the trial lesson do not oblige you to register for a term.

Please give sufficient notice if you wish to withdraw for the next term.

To register, please send me your full name, postcode and neighbourhood, email address and mobile number.

Summer Programme

3

A summer programme takes place in July, and in August lessons are offered only as one-to-one sessions and by arrangement.
